

Wagner Coilkeepers™

The best way to safely keep your steel rule in coils.

Coilkeepers are a unique system of nylon "hook and loop" fasteners especially designed to keep coils of steel rule securely strapped. Coilkeepers are easy to use, and when used properly, can be reused for hundreds of wraps.

Applying Coilkeepers is quick and easy, and requires no special tools, simply wrap the coil squarely at approximately three spots around the coil at 120° intervals. For best results keep Coilkeepers at least 4 to 6 inches away from coil ends and do not slide across sharp rule edge. Coilkeepers also work great in storing bundles of strip steel rule too!

- 6 Coilkeepers per pack, enough to do two coils of steel rule (3 in safety orange and 3 in safety red)
- Overall length of Coilkeepers is 12 inches by 5/8" in width.
- Coilkeepers will securely wrap a standard 2 PT x 328 FT coil of steel rule.
- Coilkeepers are reusable, and require no tools to install.

COILKEEPERS™
You won't find a better keeper for the price!

Wagner Coilkeepers come 6 to a pack and securely bind steel rule coils or even strips of steel rule easily - without the use of tools!

Other quality products from Wagner that help improve shop safety:

Extractor 2000

Wagner's Extractor 2000 pulls rule straight up, with smooth lever action, while keeping hands and fingers away from sharp rule surfaces.

Wagner Grabber

The Grabber is the safe way to remove scrap and debris from the stripping end of the press! Available in 36" and 52" versions.

Die Storage & Carts Coilkeepers™

Henderson Die Storage Racks and Transport Carts by Wagner, offer safe and secure storage for flat dies, rotary dies as well as printing plates, thin plates, blankers, and printing ink.

Coilkeepers are a safe, easy and economical way to keep coils of steel rule securely bound.
