

Diecutting & Makeready

Diecutting & Makeready Supplies

Always looking ahead, Wagner has always been “on the cutting edge” when it comes to diecutting and makeready supplies. We stock the materials die industry pros need to expedite makeready and optimize diecutting productivity.

Thin Plates from Wagner

Wagner Thin Plates offer faster, better, more productive diecutting on high speed platen presses!

The **Wagner Thin-Plate** system provides a series of replaceable cutting plates, with a range of hardnesses to reflect specific diecutting applications. **Wagner Thin-Plates** allow for a **faster press changeover** and more predictable makeready, getting you closer to 100% cut and crease of the board in a fraction of the time compared to traditional plates.

All the Features You Asked for in a Thin Plate...

- Superior Plate Flatness
- Improved Part Quality & Consistency
 - Extends Productive Die Life
- Faster Turnaround & Greater Throughput
- Transfer Plate/Job from Press to Press
- Reduce Downtime & Production Cost
- Reduce Phenolic Counter or Matrix Cost

...Wagner Delivers!

Standard 1mm Thin Plates for all Major Press Models Available!

Wagner Thin Plates are available in soft, medium and hard versions. Reduce your makeready time run to run!

Wagner Also Provides cost-effective solutions for:

- Traditional to 1mm Thin Plate Conversions
- Chase and Chase Plate Refurbishing
- Back-up Plates and more!

Diecutting & Makeready

Diecutting & Makeready Supplies *(continued)*

Phenolic Material, Pins and Rings

Phenolic counter material is available from Wagner in either rigid or flexible styles.

Can be machine routed or water jet cut to create a durable and reusable counter for long runs. Phenolic sheets are available in thicknesses from .017" to .049" and in sheets that measure 1 meter x 1 meter (39" x 39"). Contact your Wagner location for a complete list of available thicknesses.

Counterplate Pins and Rings

Wagner Counterplate Pins and Rings are designed for pre-made counters and used as locators to transfer counters from cutting die to cutting plate for exact registration. Precision-made and reusable.

Cutting Plates and Cutting Jackets

Cutting Plates and Cutting Jackets available for a wide variety of presses!

Top quality cutting plates and jackets manufactured to precise specifications for Bobst, Thompson, Zerand, Mercury, Heidelberg, Meihle and many other press makes and models. Steel Chases are also available. Contact your Wagner location for a complete list of available press makes and models.

Cutting Plate Cleaner

Safe for the environment, non-flammable plate cleaner that leaves no residue!

Available in one gallon cans and in five gallon pails. A non-flammable alternative for effective cleaning of cutting plates and jackets. Cleans quickly and leaves no residue.

Counterboard

Counterboard in Vulcanized Fiber, Genuine Pressboard and Jute Tag.

Counterboard is available from Wagner in a variety of types. Vulcanized Fiber (red in color, top of photo) features an extra-hard construction throughout is ideal for longer runs, or when recycled board is used as a substrate. Genuine Pressboard (pearl gray, bottom of photo) is has a hard surface better suited for medium length runs. It's hard edge allows for a clean, square channel that helps define a crease or score. Jute Tag (not pictured) is manilla in color, and with its medium hardness, is best suited for short run applications.

Genuine Pressboard and Jute Tag are available in plain, self-adhesive or kraftback versions.

Score Cutting, Skiveready Knives

Scoring and Skiveready Knives

Top left: **Scoring knife** is designed to cut channels in counterboard. Precise and durable, comes complete with 2 blades and 9 shims in a convenient storage case.

Bottom right: **Skiveready knife** is a all-aluminum tool designed for skiving the counterboard. Comes complete with one center bevel blade, wrench and storage box.

Double Face Tape

Used for adhering counterboard to cutting plate. Easy to apply, holds securely, and is available in 2", 6", and 12" widths in rolls that are 36 yards (108" ft.) long.
