

# Type Perf and Track

## Available in Large, Medium and Small versions.

Type Perf is used to mark converted material with any information a diecutter or customer needs to have on the finished product. Wagner Die Supply offers a large selection of type and tracks for just about any application. Wagner carries large type (3/4" letter height), medium (1/2" letter height) and small (3/8" height).

Each size of Type Perf use corresponding mounting track that come in different base thicknesses. The different thicknesses allow for impression/penetration control on the converted corrugated product. Type is available in all the capital letters of the alphabet, numbers 0-9, hyphen (dash), slash and recycled logo.

### Large Characters

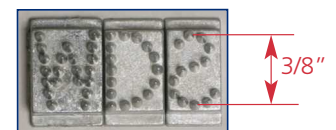

Above shown in actual size. Characters can be installed using brads or by using track. Characters also available with pressure sensitive adhesive (PSA). Available in bags of 6 characters with PSA. Available in bags of 25 characters without PSA.

### Medium Characters

Above shown in actual size. Characters can be installed using brads, two-sided adhesive tape or with track. Available by individual characters.

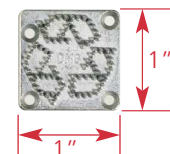

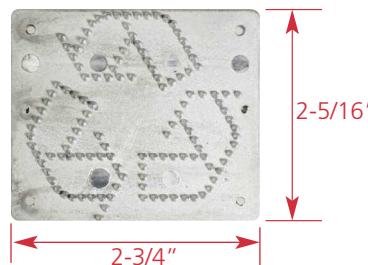

### Small Characters

Above shown in actual size. Characters are installed using two-sided adhesive tape, or by using track. Available by individual characters.

### Recycled logos

Recycled logos are available in two sizes, large and small. They do not fit the track, thus are independently installed onto the die using brads or two-sided tape. Photos of recycled symbols not in actual size. Available by individual characters.
