

## Standard Tube Oval & Square Punches

### Standard Tube Oval Punches

Also known as Squeezed Ovals, Oblong Tube Punches.

Wagner's standard oval tube punches are manufactured by squeezing the tube to the desired shape, as a result, they do not have full radius ends. .937 height is available in stock, other sizes available on request.

Note: If a close tolerance or an exact oval size is required, a milled punch should be specified.
