

# Custom Machining Services featuring CNC flexibility and accuracy!

*Wagner can provide sophisticated CNC-based machining  
for any industry and application!*

Wagner's 3-axis CNC mill with 4th axis servo, can process high carbon and low carbon metals as well as brass, plastics and many other materials.

Wagner has the equipment and know how to provide sophisticated CNC-based machining and processing for a wide variety of items and materials. Wagner can mill, lathe, grind, heat treat and laser engrave.

### Wagner can:

- **Mill** - 3-axis CNC mill with 4th axis servo
- **Lathe** - 2-axis CNC with high precision capabilities
- **Grind** - ferrous metals up to 18" long
- **Heat Treat** - low carbon steel (Case Hardening) tool steel (Thru Hardening).
- **Laser** - engrave text, drawings and picture files on a wide variety of materials.
