

Cups, Pin Points & Cross Cuts

Cup Punches

Also known as Dish Punches. .937 standard height, also available in .918

Wagner Cup Punches are made of solid rod. When these punches cut, the stock is forced into the cup and the compression acts as its own ejector. Cups can be used when cutting extremely small holes where ejection can be a problem. Never cut material thicker than the diameter of the cutting edge.

Base Size	Cut Sizes with Part Number								
1/8"	1/16" DC 062	5/64" DC 078	3/32" DC 093	--	--	--	--	--	--
